Hazard classification of specified hazardous substances

Tick all that apply

<input type="checkbox"/> Class 1: Explosives	<input type="checkbox"/> Class 1: Retail fireworks
<input checked="" type="checkbox"/> Class 2: Flammable gases	<input type="checkbox"/> Class 2: Aerosols
<input checked="" type="checkbox"/> Class 3.1: Flammable liquids	<input type="checkbox"/> Class 3.1: Flammable liquids where processing conditions, high temperature or pressure, may create major accident hazards
<input type="checkbox"/> Class 4.1: Self-reactive substances and mixtures	<input type="checkbox"/> Class 4.2: Pyrophoric liquids and solids
<input type="checkbox"/> Class 4.3: Substances that emit flammable gases in contact with water	<input type="checkbox"/> Class 5.1: Oxidising gases
<input type="checkbox"/> Class 5.1: Oxidising liquids and solids	<input type="checkbox"/> Class 5.2: Organic peroxides
<input type="checkbox"/> Class 6.1: Acute toxic	<input type="checkbox"/> Class 6.9: Specific target organ systemic toxicity (single exposure)
<input type="checkbox"/> Substances that react violently or liberate toxic gas on contact with water	

Public warning in case of major incident

General information about how the public will be warned in the event of a major incident at the facility:

In the event of a major incident involving a release of fuel or a fire, the site alarm siren which contains an emergency announcement 'emergency - evacuate the area' for the terminal will be activated.

A representative from Terminals (N.Z.) Limited will call the immediate neighbours advising them of the major incident.

TNZ has developed ERPs in consultation with regulators, emergency services and its neighbours. The ERPs detail how the terminal will respond in the unlikely event of an emergency and assists in managing an emergency situation to limit the impact to people and the environment.

The ERPs include information on the procedures to be implemented, who to contact, resources and equipment for use during the incident, emergency command structure, roles of personnel, and training undertaken to prepare personnel to respond to an emergency.

All personnel on site are familiar with the ERPs and are fully trained in emergency response procedures. The ERPs are tested with simulations on at least an annual basis.

Public actions in case of major incident

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

The terminal is manned Monday to Friday from 7:30 am to 5:00 pm.
 Should you see, smell or hear anything unusual, immediately call the terminal on (07) 572 3806.
 After hours, calls should be made to 021 444 966. When making a call be prepared to provide the following the information...

1. Your name and contact details.
2. What you have seen, smelt or heard.
3. The time and where specifically you noted the unusual occurrence.
4. Any other activities which may be occurring in the immediate area.

Emergency services (Bay of Plenty Emergency Management) are responsible for communicating with the community and providing up-to-date information to the community in the event of an emergency with immediate threat.
