| <input type="checkbox"/> Substances that react violently or liberate toxic gas on contact with water |  |

**Public warning in case of major incident**

General information about how the public will be warned in the event of a major incident at the facility:

In the event of a major incident, people in the immediate neighbouring properties will be informed via phone and/or in person. Emergency services will establish a cordon in the affected area. People in the wider community will be notified by emergency services as necessary. Information will be passed through the NZ Police or the Canterbury CDEM (Civil defence Emergency Management) Group.

**Public actions in case of major incident**

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

In the event of a major fire or spill, members of the public downwind of the facility could be exposed to smoke or fumes. As a precaution in this situation, members of the public should adopt the "Protect-in-place" strategy:

- \* Remain inside
- \* Close all doors and windows
- \* Shut off all ventilation, heating, and cooling systems
- \* Stay on the side of the building furthest from the facility
- \* Tape or seal gaps in or around windows, doors, ventilation ducts
- \* Follow all instructions from emergency services
- \* Evacuate if directed to do so by emergency services
