Public warning in case of major incident

General information about how the public will be warned in the event of a major incident at the facility:

By site alarm sounding, warning those on site and nearby of an event.

Followed by phone call to neighbors advising of the event. In the event of a gas leak those down wind advised first.

Allow emergency services to assess situation and on their advise work with local Civil Defence to escalate extent of warning.

Public actions in case of major incident

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

In the event of a gas leak neighbors/public in down wind areas be recommended to evacuate immediately.

Others neighbors recommended to evacuate as soon as possible.

Follow advise of emergency services attending the incident.
