Public warning in case of major incident

General information about how the public will be warned in the event of a major incident at the facility:

The site is controlled within the Norske Skog Site Emergency Plan.

Public actions in case of major incident

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

There are no public boundaries as the TOPP1 power plant is contained within the Norske Skog pulp and paper site with secure access to point to only workforce or contractor staff.

Members of the public would be excluded from site entry as a normal matter of course and held at the main security entrance point if site entry was attempted.
